

The Chalice-lighters Song

We are the chalice-lighters, this is our song.
You'll find a welcome here when you come along.
Stories, surprises and projects to do.
Learning and laughing and sharing with you.

CHORUS

We are the chalice-lighters, this is our song.
You'll find a welcome here when you come along.

We are the chalice-lighters, going for green.
All through the year there is so much to be seen.
Each changing season brings festivals too;
Harvest, Christmas, Easter, just to mention a few.

CHORUS

We are the chalice-lighters, bronze is our aim.
No two activities are ever the same.
Baking and singing and all kinds of art,
Sometimes in services playing our part.

CHORUS

We are the chalice-lighters, silver's our goal.
In our communities we're finding a role.
What can we do in our churches and schools?
Can we help others and play by the rules?

CHORUS

We are the chalice-lighters going for gold.
This is the ultimate in levels we're told.
As young Unitarians we talk about things
Trying new modules and spreading our wings.

CHORUS
